

Conventual Franciscan Vietnam Mission

Newsletters

May, 2017

On May 27, The Franciscan Seminary marked an end of its Academic year with a Ceremony. This year Friar Joseph Cupertino Nhuong graduated with a Bachelor of Theology. We continue to pray for him and for his ministry at Van Mon's Leprosy village.

Early this summer break, the student friars started their summer vacation with some maintenance projects at the St. Anthony Friary. The first project is to replace damaged floors in some of the student bedrooms and the next one is to fix the damaged terrace on third floor that leaks into the friary when it rains. All the student friars are working hard together with the help from Friars Anthony Duong and John Baptist Thuan to complete this project. The students benefit from the experience of working together.

The friars finished their ministry for the school year: "ST. ANTHONY PORRIDGE POT". Several students make soup, roll it down the street to the hospital and serve lunch to more than 200 patients.
